The Ladies of
"Our Daily Bread"

February 2005

*We bring you wonderful taste as well as the feeling of home,
of times gone by, of good quality, of healthy food and warm hearts.*

As we greet February, the month that celebrates love, we honor the One who is Love. "Nothing ...in the whole world will ever be able to separate us from the Love of God." Romans 8:39

Part of living in Kansas is weathering the gray days of winter, and encouraging each other to look forward to the spring. We were informed by a Florida friend, that they do not have lilacs there because those unique bushes require the hard freeze in order to bless the plant with the lovely fragrant blossoms that appear in the spring. Mom & Sweeny went to Phoenix during January to visit family, and although we hope they enjoyed their trip – we teased them about being traitors to those of us who have hunkered down here to wait out the weather. Connie and Cindy have February Birthdays and they are the middle children of the Drebes family. February children are children of hope. They watch intently for signs of the first signs of green that force their way through the ground. Calving season will start soon. In our area of the country the baby calves are born in what is often the coldest part of the winter. The whole family is usually involved in the effort as those first few hours for the babies as so crucial. If they happen be born during a storm, they often get to be a guest in our homes, which always creates great joy

for the children of the household. I always questioned why the ranchers don't wait until the middle of the summer for this blessed event. They explain that the strongest calves are the ones that are born earliest and make it through the hard weather. It seems if they get the help they need to get a good start, they are better for the trial. There are many lessons learned from living in a world of seasons. One lesson, that Mom always shared with us was her favorite passage "And it came to pass...." It didn't come to stay.

Our faith in the face of trials cranks up the volume of God's Song.

If the Joy of Love is truly found in what we can do for others, then the grey days of winter are a wonderful opportunities to reach out to others. Watching with all of you for those first signs of Springand celebrating this month of Love!
